Balmachie Rodger, after being pronounced Grand Champion Bull on Royal Highland Show 2017, was bought by Mr. Valihrach and imported to the Czech Republic. Royal Highland Show is national show where only the elite cattle of Great Britain meets.

Rodger's following success on the Angus Show 2018 that took place in Ceske Budejovice (Czech Republic) might seem to be a piece of cake for him. However, he met German National Champion 2018 - bull Etos (Grand Champion of Angus Bundesschau) there. Despite such as strong competition, Rodger was awarded as Grand Champion again.

Apart from being of exclusive show type, Rodger offers outcross pedigree, very good milk and retail beef yield.

Both his parents come from Balmachie farm: He is the first calf from Balmachie Rachel K090 and his father is Balmachie Ben Vorlich L 105 ET, who has got above average breeding values for growth in Great Britain: +41 kg in 200 days, +79 kg in 400 days, + 93 kg in 600 days in combination with BV for retail beef yield +1,9. However, his excellent trait is milk with BV +16 kg. Milk is brought to Rodger's genotype also from the maternal side, as his maternal sire Black Bear H050 has got BV for milk +11 kg, and his mother's BV is + 18 kg. **Rodger himself has got BV for milk +17 kg, which ranks him among top 10 % animals in Great Britain.**

Also his BV for retail beef yield ranks him among 10 % animals in Great Britain.

Rodger was awarded by 93 points in selection for breeding in the Czech Republic (out of 100 possible)!
