CONFORMATION

Halco is a bull with a large body frame and body capacity. In the basic selection he was evaluated with 84 points for exterior. He is a bull with excellent growth potential, with a test gain of 2125 g and a birth weight of 1737 g. The sire's sire is the well-known show bull Mewil Blackstar 45D, who is a double breed champion. Halco is recommended for cows of smaller body frame where you need to improve exterior and growth potential. The topline is particularly excellent.
