

# Bearna – Dhearg **NEW WAY P**

**\*13.3.2021**

**Curaheen Evolution P x Delfur Decider 12**

New Way is a new heterozygous polled star of our Simmental offer, in our opinion it is an absolutely exceptional animal, which has no parallel in our country or in its home country!

This is the most distinctive bull we have seen on our travels in Ireland.

New Way is a son of the bull **Curaheen Evolution P**, his dam is a daughter of the bull **Delfur Decider**. He weighed 780kg at a year old, has absolutely top feet&legs and temperament, stood out in his age group on the farm and is clearly the best bull to ever come from this farm (according to the breeder).

New Way is therefore an absolutely complete bull that will be very easy to use in your herd, excelling especially in his muscling, width and body frame.
